GREAT LEADER THE OF OUR ALLIES

Our boys are now following the great leader of our Allies "over there," fighting the battle of the United States, fighting without thought of being heroes-but fighting that men, women and children may not be tortured, burned and mutilated. Fighting against the bestial foe of America and mankind. No greater heroes nor braver men ever fought on the battle-fields of France than our "Sammies." Men with dauntless spirits-men of red blood, courage, energy, vim and vigor are needed every day behind the lines as well as behind the guns. You need iron in the blood! Every healthy man or woman should have about as much iron in his or her body as there is in an ordinary "tenpenny" nail. To gain this iron, the best way is to take an iron-tonic, called "Iron-tie," a combination of iron in its most soluble form, discovered by Dr. Pierce and experimented with by his physicians at the Surgical Institute in Buffalo, N. Y.

"Iron-tic" is a form of iron readily taken up by the blood, the bloodcells get round, rich-red in color, the cheeks are pink, the appetite improves, and one feels full of "snap"-"pep"-"vigor"-instead of tired before the day is half done. The eyes take on a luster and the body feels that tingle which one gets from a cold bath. If you want to try this new "Iron-tic" Tablet send 10 cents to the Surgical Institute in Buffalo, N. Y., and obtain a trial package. This 20th-century Iron tonic is sure to do you good. Druggists sell "Iron-tic" for sixty cents.

ECZEMA LA GRIPPE (F.L.U.) U. S. TRANSPORT AMERICA GOES DOWN AT HER DOCK

REPORT SAYS SEACOCKS WERE LEFT OPEN.

Thirty of Thirty-Five of Crew Missing - Troops Aboard All Landed Safely.

An Atlantic Port, Oct. 15,-The United States transport America, for-merly a German steamer by that name, sank at her docks here this morning. Between thirty and thirty-five members of the crew are missing.

It is reported that there were troops aboard, but they were all safely re-

Between thirty and thirty-five members of the crew are missing.

It is reported that there were troops aboard, but they were all safely removed.

Seacocks Opened.

The vessel's seacocks were opened, according to one report.

The America, formerly the Hamburg-American liner Amerika, displaced 22,622 tons, and had a troop carrying capacity of about 6,000 men. The liner was built by Harland & Woiff at Belfast, in 1905, and was interned in an American port when was broke out. When the United States entered the conflict the Amerika was requisitioned along with the other German and Austrian vessels in American ports. Since then she has been used in the transport service. The ship is 662 feet long, and 74 feet wide, and formerly halled from Hamburg. Officials clamped the lid down tight on information. The only statement made officially was that the cause of the sinking had not been established.

Went Down Abruptly, stern first. Witnesses said that scarcely three minutes clapsed after the big transport first tilted until she was resting on the bottom with all her decks submerged. It was pointed out that if her seacocks had been opened, according to one report.

HUNTSVILLE SUFFERING

Ne signs of Cessation of Malady—Stringent closing Orders issued by Mayor. Huntaville, Ala., Oct. 15.—(Special.)—Influenza and pneumonia are increasing here with rapidity, with but little prospect of an early cessation. Up to neon Monday the deaths totaled 83 during the past fifteen days.

The health officer, Dr. Carl Grote, has published a card appealing to the country people of remain away from the city. Business of all kinds is thoroughly demoralized and some business houses are closed on account of the illness of proprietors or employes.

The postal service is crippled, numerous employes of the local postofice being confidency in the proprietors or employes.

The plantam Postamster S. H. Murphy because lit today.

The Alabama Power company, which lost its manager by death Saturday, is having difficulty finding amployes enough to run the

resting on the bottom with all her decks submerged. It was pointed out that if her seacocks had been opened, the vessel would have gone down much slower.

The sudden sinking of the America recalls the accident to the 11.000-ton troop ship, the St. Paul while lying at her dock last April. The St. Paul's seacocks had been left open by accident, an official report made in June said, "improper trimming due to structural changes" had caused that vessel to sink. The St. Paul has since been successfully raised and put into commission again.

It was reported that machinists had been working in the boiler room on the ship. Truck loads of clothing and supplies had been sert to the dock to be loaded on the vessel. It is not known whether these supplies went down with the ship.

"Only incomplete information is in speak to structure the state of the hour is trained on the hour is trained on the saking. The health officer, addressed a letter to Mayor Henry Chase asking that the business houses be required to curtail their hours of business houses as houses except drug stores, butcher than 5 p.m. The hours for Saturday are strended from 8 in the morning to 10 at night.

BUILDING DESTROYERS

Anticipating Removal of U-Boat Activities, Navy Department Gets Busy.

Washington, Oct. 15.—Anticipating Germany's intention to renew her submarine activities on even a greater scale than heretofore, steps are being taken to sped up America's destroyer proprights.

down with the ship.
"Only incomplete information is in the hands of the authorities of the port," Lieut. F. B. Lawson announced.
"Any loss of life will have to be determined by checking the muster rolls."

It was unofficially stated this afternoon that if there was any loss of life the dead probably would not exceed three or four. Early reports said that between thirty and forty members of the crew were drowned in the boilerroom.

The cause of the sinking is unknown. One report is that the seacocks of the transport were open, and another has it that the ash-chute was not closed.

An investigation is under way.
It is said that between 200 and 300 soldiers were on board the transport at the time of the accident, including 1,200 members of the crew. Twenty men were in the sick bay. The vessel had a capacity for 8,000 soldiers,

No Lives Lost.

Washington, Oct. 15.—That no lives were lost when the big transport America, formerly the Hamburg-American liner Amerika, sunk at her pler at an

liner Amerika, sunk at her pier at an Atlantic port today was the opinion of navy officials here. They had received only a preliminary report, which they said indicated the sinking was entirely accidental. A naval court of inquiry will investigate, and meanwhile the naval authorities have called for a complete report. The America was a vessel of 22,622 gross tons.

EMERGENCY PAY CHECKS

Washington, Oct. 15.—Emergency pay check books would be given every soldier of the American expeditionary force for use when army pay fails to make connections on schedule time, under a plan proposed to war department officials today by Representative Sherley, of Kentucky, chairman of the house appropriations committee.

Representative Sherley has just returned from France, where he investigated many complaints of fallure to make prompt payment of wages to the troops. Many of the delays of the past will be eliminated by the new accounting system adopted by Chief of Staff

SORE THROAT

Colds, Coughs, Croup and Catarrh Relieved In Two Minutes,

Relieved in Two Minutes.

Is your throat sore?
Breathe Hyomei.
Have you catarrh?
Breathe Hyomei.
Have you a cough?
Breathe Hyomei.
Have you a coid?
Breathe Hyomei.
Have you a coid?
Breathe Hyomei.
Hyomei is the one treatment for all nose throat and lung troubles. It does not contain any cocaine or morphine and all that is necessary is to breathe it through the little pocket inhaler that comes with each outfit.
A complete outfit costs but little at druggists everywhere and at Jo Anderson's, and Hyomei is guaranteed to banish catarrh, croup, coughs, colds, sore throat and bronchitis or money back. A Hyomei inhaler lasts a lifetime and can be obtained from druggists.—(Adv.)

Get the Habit of **Drinking Hot Water** Before Breakfast

Says we can't look on feel right with the system full

Millions of folks bathe internally now instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. It is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile tended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, billous attacks, fout breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of allments.

Feople who feel good one day and baally the next, but who simply can not get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the

March, Sherley said, but in cases where troops are shifted there seemed no way of absolutely insuring prompt payment. Under Sherley's plan the government will furnish to each soldier a check book containing checks totalling \$10 or \$15. Each check would be legal tender for the use at Y. M. C. A. huts, quartermaster depots, Salvation Army stations and all other than civilian shops where cigarettes, chocolate and the like are sold.

The money for the books would be taken from the pay of the men in small installments. The issuance of such check books, Sherley believed, would guard against a repetition of such scenes as that witnessed by Representative Reavis, of Nebraska, in a Paris hotel, when a beautiful French woman "passed the hat" among the guests for the benefit of a group of American soldiers outside who were without money.

HUNTSVILLE SUFFERING

Anticipating Removal of U-Boat Activities, Navy Department Gets Busy.
Washington. Oct. 15.—Anticipating Germany's intention to renew her submarine activities on even a greater scale than heretofore, steps are being taken to sped up America's destroyer proprogram.

Becretary of the Navy Daniels, with Admiral Taylor and Griffin, was in conference today with the representatives of all shippards that are building destroyers for the government. This conference was expected to result in the devising of a speeding-up program that would frustrate any attempt of the Hun at a successful drive with his undersea craft. The conference was understood to be the direct outcome of several conversations between Secretary Daniels and Sir Eric Geddes, first lord of the British admiralty, who, upon his arrival in this country recently expressed the belief that Germany was planning renewed naval activities.

J. C. HIBBETS, City, Treasurer and Tax Collector.

SPEED-UP CONTEST

Local Boards Reporting Rapidly Completion of Classification.

Washington, Oct. 15.—A rapid pace is being set in the speed-up contest organized by Provost Marshal-General Crowder for the classification of men of the ages of 19 and 20 and 31 to 36 inclusive, who registered on September 12. Since yesterday the number of local boards in various states that have completed classification and finished the physical examination of all Class I men has been doubled Gen. Crowder announced today. Altogether eighty-three boards have gone over the top in this respect, Indiana and Wisconsin, with 124 and 104 local boards under their respective jurisdiction, have completed 60 per cent. of the entire work of classification.

For the entire country, the showing, according to latest returns, was:

Total number of local boards in the United tates, 4.543: number of local boards completing 30 per cent. of classificacion, \$2.272; 60 per cent., 1.851; 30 per cent., 1.330; complete classification, 555; number completing 30 per cent. of the physical examination of registrants placed in Class 1, 285; 60 er cent, 158; 90 per cent., 83.

LOANS STIMULATED

Washington, Oct. 15.—Liberty loan subscriptions have been stimulated by President Wilson's reply to the German peace note, according to reports to the treasury today from committees throughout the country.

Tomorrow is to be "Civilian Draft Day" for the liberty loan. On that day workers will "draft subscriptions." it was announced today by the treasury department. Workers will make an attempt to canvass every home in the country and prevail upon those who have not yet subscribed to buy a bond and upon those who already have one to purchase another.

gram no longer is possible to him. He must fight it out now or surrender.

Safeguard Supremacy
One allied officer summarizing the

One allied officer summarizing the situation, said:

"Just as we had the feeling last March of being always forty-eight hours too late to stop the drive toward Amiens; now the enemy, dominated by the power and continuity of our attacks, is no longer succeeding in filling the gaps. But while in March our forces were constantly increasing, today those of the enemy decrease."

To safeguard this hard won supremacy, it was said, measures would be

Every Good Physician Ought to Prescribe Nuxated Iron

NAND KING, NEW YORK PHYSICIAN AND MED-ICAL AUTHOR, IN CERTAIN CASES.

Says Sworn Statement of Composition of Formula of Nuxated Iron Printed Below, Should Convince Every Physician and Pharmacist, No Matter How Skeptical, That It Is a Product of Greatest Therapeutic Value.

Both the medical profession and the public at large should give great credit to the manufacturers of Nuxated Iron, says Dr. Ferdinand King, New York pflysician and medical author, on account of their voluntary act in authorizing the widespread publication of the sworn statement of the composition of the Nuxated Iron formula in newspapers and magazines for the information of the public and for their generous offer to send a signed typewritten copy of the exact formula to all physicians and others interested.

Dr. King further says: "A careful examination of this valuable formula should not only convince the three million pears and it is estimated are now using it annually in America alone, that they have made no mistake in selecting it, but it should also convince every physician and "If you feel tired in the mornphysician and medical author, on

others interested.

Dr. King further says: "A careful examination of this valuable formula should not only convince the three million people whom it is estimated are now using it annually in America alone, that they have made no mistake in selecting it, but it should also convince every physician and pharmacist that it is a product of greatest therapeutic value which the general practitioner can prescribe almost daily in his practice with remarkable benefit to his patients, and one which, in my opinion, every good physician should at times prescribe if he wants to do the greatest possible good to those who consult him. There is, I believe, no form of iron which is so valuable as that particular special specific standard which is used in Nuxated Iron, and if a physician has a patient whose condition is one that requires iron. I would most earnestly suggest that no matter what other forms of iron he may prescribe without success, that he should try that particular form used in Nuxated Iron.

try that particular form used in Nuxated Iron.

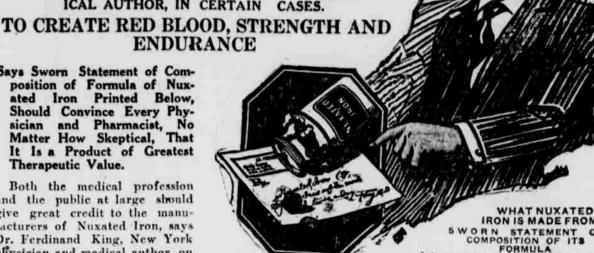

"There can be no strong, sturdy from men, nor beautiful, healthy, rosy-cheeked women, without Iron. Pallor means anaemin. Anaemia means from deficiency. The skin of anaemic men and women is pale; the fiesh flabby; the muscles lack tone, the brain fags and the memory falls and they often become weak, nervous, irritable, despondent and melancholy.

"Therefore, if you wish to preserve your vim and vigor to a

blood is not of the right kind.

"If you feel tired in the mornings: restless at night; if you suffer from weakness or lack of vitality; go to your family doctor and have him take a specimen of your blood and examine it, and if it shows iron deficiency, get him to give you a prescription for organic iron—Nuxated Iron. Do this so as to be sure that you do not get hold of some of the numerous forms of metallic iron preparations on the market, which may do you more harm thanggood. Or if you do not want to go to this trouble, purchase an original package of Nuxated Iron appear on the package. Not Nux and Iron, nor any other form of iron other than Nuxated Iron.

Manufacturers' Note: Nuxated Iron, which is prescribed and recommended by physicians and which is now being used by over three million people annually, is not a secret remedy, but one which is well known to druggists everywhere, Unlike the older inorganic iron products (i.d. Adv.)

IRON IS MADE FROM

WHAT NUXATED IRON IS MADE FROM SWORN STATEMENT OF COMPOSITION OF ITS FORMULA

Ask your dector or druggist or any Pharmaceutical Chemist or Professor of Therapeutics in any Medical College in regard to this formula.

A copy of the actual aworn statement will be sent to anyone who dealros it. It is as follows: Iron Peptonate (Special Specific Standard), Quantity given below. Sedium Glycerophosphates U.S. P. (Monsanto), Calcium Glycerophosphates U.S. P. (Monsanto), Calcium Glycerophosphates U.S. P. (Monsanto), Calcium Glycerophosphates U.S. P. (Monsanto), P. E. Nux Vomica II. S. P. — rine Bitter, Magnestum Carbonate, Po. Ginger U.S. P., Oil Cassia Climamon II. S. P. — m Carbonate Precip. U.S. P. Each dose of two tablets of Nuxated Iron contains one and one-half grains of organic iron in the form of iron peptonate of a special specific standard, which in our opinion possesses superior qualities to any other known form of from. By using other makes of Iron Peptonate we could have put the same quantity of actual iron in the tablets at less than one-fourth the cost to us, and by using metallic iron we could have accomplished the same thing at less than one-twelfth the cost, but by so doing we must have most certainly impaired their therapeutic efficacy. Glycerophosphates used in Nuxated Iron is one of the most expensive tonic ingredients known. It is especially recommended to build up the nerve force and thereby increase brain power, as glycerophosphates are said tontain phosphorus in that particular state so similar to that in which it is found in the nerve and brain cells of men.

As will be seen from the above, two important ingredients of Nuxated Iron (Iron Peptonale and Glycerophosphates) are very expensive products as compared with most other tonics.

Under such circumstances the temptation to adulteration and substitution by unscrupulous persons is very great, and the public is hereby warned to be more careful and see every bottle is plainly labeled "Nuxated Iron." by the Dae Hensith Laboratories, Paris, London
